Subject: Camp Incident- DINS Daily Data November 13

All,

Please see the attached preliminary DINS update for November 13, 2018. The excel file includes a damage/destroyed structure count and list of damaged/destroyed structures (full data collection). The zip file has the GIS shape file.

Thank you,

Andrew Henning

Hi,
Thank you for this information. It is challenging trying to track down this data, so this will definitely help.
Katie.

Hi,

Do you have access to the Damage Inspection Data that was emailed out from CalFire?
Are you able to forward the most recent DINS data to me? I am with Paradise EOC and need this information to include into reports and create maps for the Town of Paradise.

thanks,
Katie Miller

Hi Colette,

Here is the information you requested. They note on their email that this would be "the last set of daily data as the team transitions to compile and complete the final report. These final numbers and the shapefile will not change."

Please let me know how else I can be of assistance.

Thanks.

Subject: Camp Incident - DINS Daily Data November 24th FINAL
All,

The Damage Inspection field collection process is 100% complete. This will be the last set of daily data as the team transitions to compile and complete the final report. These final numbers and the

shapefile will not change.

Please see the attached preliminary DINS update for November 24, 2018. The excel file includes a damage/destroyed structure count and list of damaged/destroyed structures (full data collection). The GIS shape file is not attached due to size.

Thank you,
